

X-SMALL Junior

For very small dogs. Adult weight up to 4 kg
From 2 to 10 months old

*Please note: Kibble not shown to scale.

VERY PALATABLE & VERY SMALL KIBBLE

Available in 1.5kg

This small-sized kibble has been developed to be perfectly adapted to the miniature jaw of dogs under 4 kg. Its exclusive formula also helps stimulate fussy appetites in very small breed dogs.

An exclusive combination of nutrients to support digestive health (L.I.P. proteins) and a balanced intestinal flora (prebiotics). **VERY SMALL BREED PUPPIES** are prone to constipation. A balanced intake of fibres (including psyllium) helps facilitate intestinal transit and contributes to good stool quality.

INTENSIFIED ENERGY CONTENT

Meets the very high energy needs of very small breed puppies during the growth period, and satisfies fussy appetites.

DENTAL HEALTH

Helps reduce tartar formation thanks to the calcium chelating agents.

NATURAL DEFENCES

Helps support the puppy's natural defences, thanks particularly to a patented antioxidant complex and prebiotics.
