START COMPLEX

Digestive Health • Natural Defences

The fruit of ongoing science from Royal Canin, START COMPLEX is an exclusive combination of nutritional elements which are present in mother's milk, reinforced with specific nutrients which actively contribute to promoting digestive health and supporting the puppy's natural defences.

Available in
4kg, 15kg

Birth programme

Inspired by Professional research, **BIRTH PROGRAMME** is a unique nutritional solution which meets the needs of the bitch and her puppies during the first five stages of their life cycle: gestation, birth, lactation, weaning, and growth up to 2 months old.

GESTATION/LACTATION SUPPORT

Nutritional profile which is adapted to the bitch's high energy needs at end of gestation and during lactation.

IDEAL FOR TRANSITION FROM MILK

Nutritional response which facilitates the transition from mother's milk to solid food (energy value, quality protein, fats).

EASY REHYDRATION

The kibbles easily rehydrate to a porridge-like consistency which is very palatable for the bitch and her weaning puppies.
