4kg and 15kg

NATURAL DEFENCES

Helps support the puppy's natural defences, thanks particularly to an antioxidant complex and mannan-oligo-saccharides.

PREBIOTICS & L.I.P.

Digestive health

An exclusive combination of nutrients to support optimal digestive security (L.I.P. proteins) and a balanced intestinal flora (prebiotics: fructo-oligo-saccharides, mannan-oligo-saccharides) which also contribute to good stool quality.

INTENSE GROWTH - CONTROLLED ENERGY

Helps support high growth rate during the first growth phase in giant breed puppies and avoid excess weight gain thanks to an adapted energy content.

BONE & JOINT SUPPORT

Contributes to good bone mineralisation in giant breed puppies thanks to a balanced intake of energy and minerals (calcium and phosphorus), thus supporting bone consolidation and joints.
